

First Sounds

Type each block of code in one at a time and run to see how it sounds.

```
play 60
```

```
play 64
```

```
play 67
```

```
play 60  
play 64  
play 67
```

What did you notice about those notes? Is that what you expected?

```
play 60  
sleep 1  
play 64  
play 67
```

Notice what the sleep does. How would you add more `play` and `sleep` commands to play a melody?
